

# ASBESTOS FREE CERTIFICATION

January 1, 2021

KLINGER Thermoseal certifies that all KLINGER® grade materials are asbestos free. No asbestos is added to the material or is used during any part of the manufacturing process, at any level of our supply chain.

Asbestos is not used or stored in any KLINGER Thermoseal facility. Additionally, KLINGER Thermoseal only uses fiber supplied by vendors who certify conformance to one or more of the following standards for each shipment:

- » ASTM D5756 – 02(2008) – Standard Test Method for Micro vacuum Sampling and Indirect Analysis of Dust by Transmission Electron Microscopy for Asbestos Mass Surface Loading
- » NIOSH 7402 – Asbestos by TEM
- » ISO 14966 – Ambient air – Determination of numerical concentration of inorganic fibrous particles – Scanning electron microscopy method

For product safety information, please refer to the safety data sheet (SDS).
