

KLINGERSIL® MERCURY AND LEAD

KLINGERSIL® compressed fiber gasket materials do not contain “functional” mercury or lead. By “functional” mercury or lead, we mean the purposeful addition of mercury, lead, mercury compounds, or lead compounds to obtain the functional properties of KLINGERSIL® compressed fiber gasket materials.

We hereby certify that after receipt of the raw materials in our warehouse, no mercury, lead, mercury compounds, lead compounds, mercury instruments, or lead-based materials are used in or near the manufacture, storage, handling, or shipment of the KLINGERSIL® compressed gasket materials.

KLINGER Thermoseal

A handwritten signature in black ink, appearing to read "C. Morris", written over a light blue horizontal line.
